

CREATING A HOME GARDEN

ACTIVITY DATES: 20 October 2022 to 20 November 2022

ACTIVITY

The joy of a new shoot as it sprouts through the soil, the first flower that blooms, or the first harvest of fresh vegetables — what a wonderful, shared experience for the whole family! As you discuss, plan and shop for your garden, there's going to be lots of conversations around your ideas and how you would like your garden to be. Besides, growing plants could help your child learn valuable life skills without you having to preach!

Growing a home garden from scratch can turn out to be a truly rewarding experience for the whole family. So, go ahead and dive into your home garden project with all your energy and enthusiasm.

- 1 Get all the family members to participate.
- 2 Select an appropriate space for your garden — the balcony, a yard or an area that gets ample sunlight inside your house.
- 3 Together with your child clean the space. Remove all the dust and dirt and dry leaves and stones if you are using a yard.
- 4 Now for the fun part. Go green shopping at a plant nursery. Let your child pick the pots, and the plants and the seeds they think they want to grow. The variety of plants with their different colours, shapes and sizes could awaken a new passion in you and your child.
- 5 At home, together with your child decide on how you would like to arrange your new plant collection.
- 6 Let your child plant the seeds and watch the plants grow.
- 7 Set aside regular family time for caring for your garden and share the responsibilities.
- 8 For some more family bonding, get together and paint or decorate unused bottles and containers to use as planters.
- 9 Share the picture with us and win exciting gift vouchers.

BONUS

Sangita Wahi Mohin, Organic gardener and founder of Green Street, an online community of home gardeners shares tips on home gardening:

- **Video 1:** Getting Started
- **Video 2:** How to choose the right plants for your home garden
- **Video 3:** What is a kitchen garden and how to set it up?
- **Video 4:** Tips on how to water and maintain the garden forever
